EXAMINER'S REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claim 79 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including:

An inhalation device comprising: two elongate form medicament carriers, each carrier having multiple distinct medicament dose portions in powder form carried thereby,

the medicament dose portions of one carrier containing a medicament active, or a mixture of medicament actives, which is different from that in the medicament dose portions of the other carrier,

an actuating member...a dispensing mechanism...to act upon each medicament carrier together to dispense a single distinct medicament dose portion carried by each medicament carrier, said mechanism comprising,

at least one receiving station...a release for releasing in combination a distinct medicament dose portion from each of the medicament carriers...

an indexer for each medicament carrier for individually indexing the distinct medicament dose portions...

Art Unit: 3651

he indexers being mutually coupled; and simultaneous inhalation of the distinct medicament dose portions releasable by said release in combination with the rest of the claim language is not taught or fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
